

## Web design work and GMB Ranking for an Auto start-up.

### About The Client

CareYourWheels.com provided their customers with the most convenient mobile car washing & detailing payment experience possible.

### Challenge:

The client is an automobile industry start-up. They want to create a completely new website and rank their business on Google Maps.

### Customer Website:

<http://careyourwheels.com>

### Optimization Used:

Wordpress, Elementor, Photoshop, Figma, GMB

### Industry:

Auto Start-up : Waterless Car Wash Service

The customer had an outdated website with low loading speed & low quality images. A lot of new services had to be added. Since the Customer Life Time Value is a concern the website UX had to be prompt.

### Solution:

- › We designed their website and added their company to Google My Business.
- › We devised a strategy to swiftly rank their website in Google Local Pack.
- › After validating the company, we were able to get their website ranked in under 30 days.
